Academic Year : 2023-24
Activity : Guest Lecture on Guidance for MPSC Exam Preparation.
Participants Count : 50
Date of Activity : 26 August 2023
Place : JIEMS, Akkalkuwa.
Resource Person : Dr. Quazi Meezan
Objective : To familiarize the students with the structure, syllabus, and requirements of the MPSC exam. The program aimed to provide valuable tips and guidance on effective preparation strategies, time management, and techniques to crack the competitive examination.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "Guidance MPSC Exam Preparation." on 26 August 2023 in Seminar Hall. The session was conducted by DR. Quazi Meezan.

Dr. Meezan began the session by providing an overview of the MPSC exam, including its importance, the various stages (Preliminary, Main, and Interview), and the type of questions asked. He elaborated on the eligibility criteria, the selection process, and the significance of the MPSC exam in the context of Maharashtra's governance and public service.

The MPSC Exam Guidance Program conducted by Dr. Meezan was a highly valuable and insightful experience for the final year engineering students of [Institute Name]. The students left the session feeling more confident and prepared to embark on their journey toward cracking the MPSC exam. The guidance provided will serve as a strong foundation for their future endeavors in public service.

Academic Year : 2023-24
Activity : Creativity and Design Thinking
Participants Count : 30 students, 02 teachers.
Date of Activity : 09 September 2023.
Place : JIEMS Akkalkuwa.
Objective : The creativity is to generate innovative ideas, while the design thinking is to develop effective, user-centered solutions through a structured, empathetic process.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "Creativity and Design Thinking" On 09th September 2023 in Seminar Hall. Dr. Syed Kamaluddin invited as a guest lecturer from JIEMS, Akkalkuwa. Dr. Syed Kamaluddin delivers about Creativity and design thinking are essential for innovation and problem-solving. Creativity involves generating original ideas by thinking beyond conventional patterns, fostering unique solutions across industries. The creativity is to generate novel and innovative ideas by thinking outside conventional frameworks. Design thinking, on the other hand, is a structured, five-stage process (empathize, define, ideate, prototype, and test) that focuses on understanding user needs and creating practical solutions. The design thinking is to create effective, user-centered solutions through a structured, empathetic process that ensures ideas are both practical and responsive to real-world needs. While creativity drives idea generation, design thinking refines and tests those ideas, ensuring they meet real-world requirements. Together, these methodologies enable teams to develop innovative, user-centered solutions that are both imaginative and feasible, transforming complex challenges into opportunities for impactful change.

Activity : Guest Lecture
Participants Count : 13
Date of Activity : 30 Oct 2023
Place : JIEMS Akkalkuwa.
Objective : How to Establish an Incubation Center.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "How to Establish an Incubation Center." On 30 Oct 2023 in Seminar Hall. Prof. Ishrar Jiva invited as a guest lecturer from Department of Mechanical Engineering, Technology Evangelist Hub, Parul University.

This seminar report explains the important steps for creating a special place where new businesses can grow. These places, called incubation centers, are like helpers for small businesses. They give them things they need, like advice and a place to work with others to come up with new ideas. The report also talks about the rules for running these centers and how to get the money needed to run them. These centers can be set up in different ways, like as non-profit organizations, regular businesses, or with help from the government. To tell people about the incubation center, the report suggests using things like social media, working with local universities, and teaming up with other incubators.

The session concludes with a heartfelt expression of gratitude to the guest speaker for generously sharing their valuable insights and knowledge with us throughout this enlightening lecture.

- Academic Year : 2023-24
Activity : One day workshop on "Intellectual Property Rights (IPR)"
Participants Count : All students of JIEMS
Date of Activity : 31/10/2023
Place : JIEMS AKKALKUA
Objective : To provide participants with a comprehensive understanding of the importance, principles, and practical aspects IPR.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized one day workshop on "Intellectual Property Rights (IPR)" On 31/10/2023. Dr. Mohsin Dadhi invited as a guest lecturer from Department of Mechanical Engineering, Technology Evangelist Hub, Parul University.

Dr. Mohsin Dadhi, conducted a comprehensive awareness session on Intellectual Property Rights (IPR) for faculty members of JIEMS, Akkalkuwa on 31/10/2023. The session covered the growing importance of IPR in protecting both tangible and intangible assets, providing incentives for innovation and stimulating research and development. Key topics included the introduction of IPR, the meaning of the law governing IP, types of IP (patent, trademark, copyright), and infringement.

The lecture, enlightening many faculty members previously unaware of patent procedures, concluded with an interactive Q&A session, leaving the participants satisfied. The Academic Staff College plans to organize more IPR programs, focusing on patents, trademarks, and copyright law, recognizing the necessity of awareness for successful careers and organizational development.

Activity : Industrial expert Lecture
Participants Count : 25 Students
Date of Activity : 27 Nov 2023
Place : Seminar Hall, JIEMS Akkalkuwa.
Objective : Enhance understanding, showcase applications, and explore career opportunities in NDT.

On November 27, 2023, Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) hosted a Industrial expert Lecture in the Seminar Hall. The guest lecturer for this event was Mr. Mohammad Arquam, an esteemed expert in the field of NDT working as maintenance Engineer in Al Majal Al Arabia.

An enlightening industrial expert lecture on non-destructive testing (NDT) was conducted for students, shedding light on its applications and market opportunities. The expert emphasized the critical role NDT plays in ensuring structural integrity across industries. Students gained valuable insights into various NDT methods and their applications in sectors like manufacturing and construction. The lecture also highlighted the expanding job market for NDT professionals, creating lucrative opportunities for students seeking careers in this field. The expert's comprehensive overview provided students with a solid understanding of NDT's significance in industry and the promising avenues awaiting them in the job market.

The session concludes with a heartfelt expression of gratitude to the guest speaker for generously sharing their valuable insights and knowledge with us throughout this enlightening Lecture.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "Career Opportunities In Modern Industries." On 3rd Feb 2024 in Seminar Hall. Prof. Pathan Bilal invited as a guest lecturer from Department of Computer Engineering, Parul University, Vadodara.

Prof. Bilal highlighted the rapid evolution of industries driven by AI, data science, and automation, creating new job opportunities and reshaping traditional roles. He stressed the importance of adaptability and continuous learning to stay competitive. Students were introduced to emerging sectors like smart manufacturing, green energy, and digital transformation. Prof. Bilal offered practical advice on developing technical and soft skills, as well as the importance of internships, networking, and hands-on experience in securing careers. The session included interactive discussions, allowing students to gain valuable insights into potential career paths.

The session concludes with a heartfelt expression of gratitude to the guest speaker for generously sharing their valuable insights and knowledge with us throughout this enlightening lecture.

Objective : To explore the importance of copyright and intellectual property laws in protecting creative work and software within the engineering and technology sectors

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "copyright and engineering protecting creative work and software." On 1st March 2024 in Seminar Hall. Dr. Mohsin Dadi invited as a guest lecturer from Department of Mechanical Engineering, Parul University, Vadodara.

Dr. Dadi explained the basics of copyright law and its importance in protecting intellectual property in engineering and technology, including software, patents, and designs. He discussed the copyright registration process and the rights it grants, such as reproduction, distribution, and modification. The lecture also addressed challenges engineers and software developers face in protecting their work from piracy. Dr. Dadi emphasized ethical considerations and the need to respect others' creations, sharing real-world examples of how copyright infringement impacts individuals and organizations.

The session concludes with a heartfelt expression of gratitude to the guest speaker for generously sharing their valuable insights and knowledge with us throughout this enlightening lecture.

Objective : To develop innovative, viable solutions that address market needs, enhance efficiency, foster creativity.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "**Generating and Refining Engineering Business Ideas**" On 16th March 2024 in Seminar Hall. Prof. Moin Shaikh invited as a guest lecturer from JIEMS, Akkalkuwa. He deliver about the Ideation and innovation are essential for generating and refining engineering business ideas, enabling companies to develop new products and services that meet market needs and drive industry progress. The ideation phase focuses on creative problem-solving, where engineers identify challenges or opportunities and brainstorm diverse solutions through techniques like design thinking, mind mapping, and cross-disciplinary collaboration. Innovation then takes these ideas and refines them into practical, scalable solutions, including prototype development, testing, and validation. The process of refinement involves market research, feasibility analysis, and iterative design to ensure the solution is technically feasible, cost-effective, and meets consumer demand. Ultimately, this continuous cycle of ideation, innovation, and refinement ensures that engineering solutions not only address immediate problems but also anticipate future needs, fostering long-term success and competitive advantage in a rapidly evolving market.

Report on "Expert Lecture on "Generative AI"" on '16 March 2024'

Name of Department:	Electrical Engg Department
Name of the event organized	Expert lecture on <u>Expert Lecture on "Generative AI"</u>
Date of the event organized	16 March 2024
Name of the Coordinator of the event	Prof. Adnan Khan
Class of the participants	All Students
No. of Participants	30
Name of the Expert / Resource persons/ Guest, etc. with designation	Trivikrama IIT Delhi, AI Expert
Objective of the event	1. To create awareness of Generative Artificial Intelligence. 2. To guide the students about importance of AI in growing IT field.
Outcome of the event	Students successfully attended the expert lecture by IIT Delhi AI expert.

Academic Year : 2023-24
Activity : Guidance for UPSC Exam Preparation
Participants Count : 25 students, 02 teachers.
Date of Activity : 23 March 2024.
Place : JIEMS Akkalkuwa.
Objective : The objective is to provide candidates with a clear understanding of the exam Structure, effective time management, and relevant resources.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "Guidance for UPSC Exam Preparation" On 23th March 2024 in Seminar Hall. The Union Public Service Commission (UPSC) Civil Services Examination is one of India's most prestigious and challenging competitive exams. It is conducted to recruit candidates for various civil services posts. The UPSC Civil Services Examination is one of the most prestigious and challenging exams in India. It demands a comprehensive approach, including a clear understanding of the syllabus, consistent study, and effective time management. Current affairs play a crucial role, so regular reading of newspapers and monthly magazines is essential. Answer writing practice and mock tests are key to improving writing skills and speed. A strategic study plan, focusing on weak areas and allowing time for revision, is critical for success. Finally, maintaining physical health and mental well-being through exercise, meditation, and proper sleep is vital for sustained focus throughout the preparation. The journey requires persistence and determination, as the exam not only tests knowledge but also critical thinking and analytical skills. A balanced approach, combining focused study with self-care, increases the chances of success in this competitive field.

Academic Year : 2023-24
Activity : Guest Lecture
Participants Count : 40.
Date of Activity : 24/04/2024
Place : JIEMS Akkalkuwa.
Objective : To provide a foundational understanding of research principles, explore research methods, and equip participants with skills for effective research in engineering.

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "Introduction to Research Methodology: Understanding the Basics" On 24/04/2024 in Seminar Hall. Dr Aejaaz invited as a guest lecturer from Ali-Allana College Of Pharmacy, Akkalkuwa.

The session aimed to introduce fundamental research concepts, explore various research methods, and equip participants with the skills to conduct research in engineering. Dr Aejaaz discussed key topics such as research principles, types of research methods, the research process, and the application of these methods in engineering. The lecture successfully provided students and faculty with valuable insights into research methodology, encouraging them to pursue research in their academic and professional careers. The session concludes with a heartfelt expression of gratitude to the guest speaker for generously sharing their valuable insights and knowledge with us throughout this enlightening lecture.

Academic Year : 2023-24
Activity : Guest Lecture
Participants Count : 50
Date of Activity : 25 April 2024
Place : JIEMS Akkalkuwa.
Objective : To provide students with effective online guidance and strategies for GATE exam preparation

Jamia Institute of Engineering and Management Studies Akkalkuwa (JIEMS Akkalkuwa) organized a Guest lecture on "Online resources for GATE exam preparation." On 25 April 2024 in Seminar Hall.

The session began with an introduction to the GATE exam, highlighting its importance for admission to top institutions and career growth. Experts shared tips on time management, study plans, and subject-wise preparation, emphasizing consistent practice and understanding the exam pattern. The session also covered the use of online tools like mock tests, video lectures, and study materials. Speakers addressed common preparation mistakes and provided advice on avoiding them. The interactive session allowed students to ask questions and receive personalized guidance. Overall, the lecture motivated students to approach their GATE preparation in a structured way.

The session concludes with a heartfelt expression of gratitude to the guest speaker for generously sharing their valuable insights and knowledge with us throughout this enlightening lecture.

Notice

To all Faculty Members and Students of Electrical Engineering Department.
The Electrical Engineering Department is pleased to present a thought-provoking "Seminar on Matlab and Application." This seminar aims to provide comprehensive knowledge about the latest advancements in digital tools and platforms, highlighting their applications in both industry and academia.

Date of program: 27/04/2024

Time: 10:00 to 12:00

Venue: Seminar Hall

Report of the Seminar

2023-2024

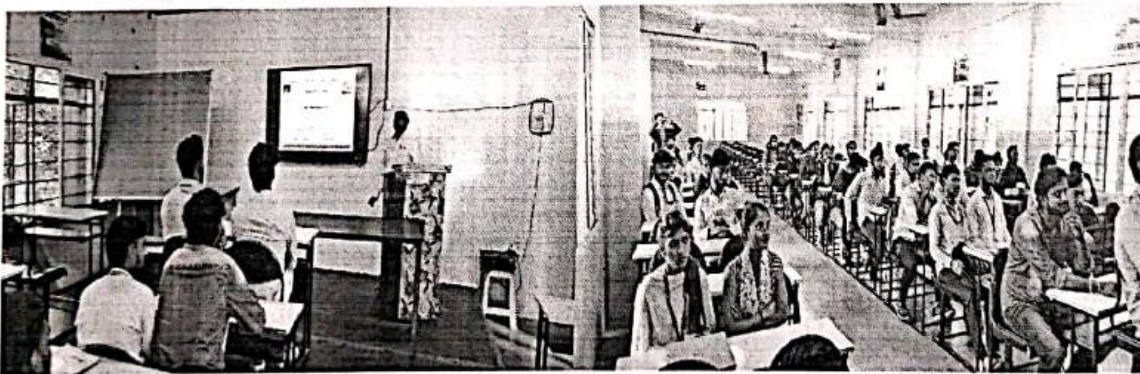

Activity: Seminar on Matlab and Application

Participants Count: 30 students and teaching staff members participated.

Date of Activity: 27/04/2024

Place: Seminar Hall

Objectives : The seminar aims to provide comprehensive knowledge about the latest advancements in digital tools and platforms, highlighting their applications in both industry and academia. The objectives of the seminar include understanding current digital tools, exploring various digital platforms, enhancing practical skills, recognizing industry applications, and discovering ways to integrate these tools into academic settings for improved learning.
